

TAHA AHMED HODHOD

Full Stack Developer — MEARN Stack, Agentic Engineer

010 332 70707 | tahahodhod650@gmail.com | Cairo, Egypt | [LinkedIn](#) | [GitHub](#) | [Portfolio](#) | Military: Completed

PROFILE

Full Stack Developer skilled in React.js, Next.js, TypeScript, Node.js, and MongoDB. Proficient in leveraging AI tools to build and ship production-ready projects faster, with systematic prompt engineering tailored to each task. Currently completing an intensive MEARN stack program at ITI — all projects are live in my portfolio. Passionate about clean code, scalable architecture, and continuous learning.

EDUCATION

Bachelor of Islamic Studies

Al-Azhar University | Jul 2019 – Jun 2023 | Egypt

- Grade: Good

INTERSHIPS

Intensive Training Program — Full Stack Development (MEARN)

Information Technology Institute (ITI), Port Said Branch | Jun 2026 – Present | Port Said, Egypt

- Developing real-world projects covering the full MEARN stack: MongoDB, Express.js, Angular, React, and Node.js.
- Projects include a hospital management system (CareHub), an e-commerce platform, and an examination system.

Frontend Training — React.js

SEF Academy | Sep 2026

- One-month intensive training focused on React.js fundamentals, component architecture, and modern frontend practices.

PROJECTS

AllInOne — E-Commerce Platform (Store + Admin Dashboard) [Store](#) | [Admin Dashboard](#)

ITI Training | Sep 2026

- Built two interconnected React 19 apps: a customer-facing store and an admin dashboard for managing products and users.
- Tech stack: React 19, Tailwind CSS, React Icons, Chart.js, React Hook Form, React Hot Toast.
- Admin dashboard features data visualization with Chart.js and full CRUD for product and user management.

CareHub — Hospital Management System [Live Demo](#) | [Frontend](#) | [Backend](#)

ITI Training | Jun 2026 – Present

- Full-stack hospital management system built with Next.js, Node.js, Nest.js, MongoDB, Mongoose, Express.js.
- Features include patient records, prescription management, medical history tracking, and role-based access.
- In progress — currently in active development.

Next E-Commerce Platform [Live Demo](#) | [GitHub](#)

ITI Training | May 2026

- Frontend: Next.js 16 (App Router), Tailwind CSS for a fully responsive UI.
- State Management: Redux Toolkit for cart and global state.
- Database: MongoDB with Mongoose for product and order data.
- UX enhancements: Framer Motion animations, React Icons, and React Hot Toast notifications.

Angular Blog System [GitHub](#)

ITI Training | May 2026

- Full-stack blogging platform built with Angular, and Json Server.
- Features include user authentication, full CRUD for posts, and a clean responsive UI.

Examination System [Live Demo](#) | [GitHub](#)

ITI Training | Apr 2026 – Mar 2026

- Interactive front-end examination system built with HTML, CSS, JavaScript, and Animate CSS.
- Supports timed quizzes, dynamic question rendering, and instant result calculation.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js 16

Styling: Tailwind CSS, Bootstrap, SASS

Backend: Node.js, Express.js

Databases: MongoDB, Mongoose, SupaBase

State Management: Redux Toolkit

Tools & DevOps: Git, GitHub

AI Tools: Proficient in using AI tools (Claude, ChatGPT, Cursor) to build production-ready projects — skilled in prompt engineering and managing AI-assisted workflows systematically

COURSES & CERTIFICATIONS

Full-Stack MEARN — ICC Certification | ITI, Port Said | *Jan 2026 – Jul 2026*

Frontend Development — React.js | SEF Academy | *Jan 2025 – Aug 2025 & Sep 2026 (React Training)*

Self-Study — Frontend Web Development | Self-directed | *May 2024 – Dec 2024*

LANGUAGES

Arabic — Native **English** — B1
